### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary Connell on 02/11/05.

The application has been amended as follows:

Delete claims 4, 22 and 29.

In claim 1, step a): after "chromatographic separation of said mixture" add -- under acidic conditions --.

In claim 18, step a): after "chromatographic separation of said mixture" add -- under acidic conditions --;

in step b): before "adding a basic liquid" add -- using sheath flow, --;  
change "d)" to "c)";

in step c): after "performing" add -- tandem --.

The following is an examiner's statement of reasons for allowance: the prior art cited in the previous Office actions as the ground for rejections does not teach or fairly suggest performing liquid chromatographic separation of prostaglandins under acidic conditions, following with adding a basic liquid using sheath flow before mass spectrometric analysis.

Examiner's comment: by definition "tandem mass spectrometry" includes mass spectrometry which generates fragments beyond original involving more than one MS fragmentation in a sequence, i.e. MS/MS (MS<sup>2</sup>), MS/MS/MS (MS<sup>3</sup>), MS/MS/MS/MS (MS<sup>4</sup>), etc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
